

ECR Informatique

目录

Fluke Networks is pleased to announce that ECR Informatique, a leading company in the cable installation market, acquired the new Versiv platform, now with a fleet of 7 cable certifiers with **DSX-5000** replacing DTX-1800 in order to consolidate its position and deployment in structured cabling solutions systems at both DataCenters and horizontal cabling levels.

ECR 创建于 2001 年，位于诺曼底（法国），专门从事标准环境或特殊环境中或制造商认证的环境中所有类型局域网的线缆安装（铜线、光纤、无线、激光）。 ECR acts on behalf of businesses, local communities, public and private institutions (education, health...) on their main site or remote facilities, and is also a subcontractor for major clients taking charge of large scale projects featuring local networks.

ECR Informatique installs, distributes and certifies over 10,000 copper and fiber optic links every year. By preparing projects with the new Fluke Networks ProjeX management system, ECR Informatique saves time not only by managing several projects simultaneously, but also by gathering reports quickly with a single click in the LinkWare software.

With interchangeable modules for testing copper and network links (with the OneTouch module), the Versiv platform allows ECR Informatique to get the validation of installed cabling systems and the maintenance of customer information systems in a faster, more accurate and cheaper way.

"By being one of the first buyers of the new Versiv platform and in particular **DSX-5000**, we move forward with technological developments rather than falling behind. This gives us an advantage over our competitors in complex projects." says Jean-Fred Bachelet, founder of ECR Informatique. "We are used to working with demanding companies that want flawless subcontractors. This starts with the measuring equipment that should be accurate and calibrated periodically as standards require. We have been operating with Fluke Networks' products for many years and we are proud to remain on the forefront of installers."

Fluke Networks, manufacturer and publisher, sells a range of products for the analysis and monitoring of business and communication networks, as well as the installation and certification of copper and fiber optic cabling for computer networks.

关于 Fluke Networks

Fluke Networks 为全球安装和维护关键网络布线基础设施的专业人员提供认证、诊断和安装的专业工具。从安装先进的数据中心到在恶劣的环境条件下恢复服务，我们传奇般的可靠性和无与伦比的性能都能保证以高效率完成工作。公司的旗舰型产品包括创新型 LinkWare™ Live — 基于云的电缆认证解决方案，迄今已上传超过 1400 万组结果。
